### The First Ascent

The first ascent of this peak was made by a party of three men, including the discoverer, in 1874. The route was a difficult one, and the men were nearly killed. The peak was named in honor of the discoverer, and it has since become a popular destination for mountaineers.

## MISSION AND VISION

### MISSION STATEMENT

The West Slope Colorado Oil & Gas Association (WSCOGA) exists to promote development of oil and natural gas in Western Colorado.

WSCOGA strives to educate stakeholders, encourage technology enhancements and foster environmental stewardship. The initiatives of WSCOGA seek to advance Western Colorado's global status and importance as a producer of oil and natural gas.

### VISION STATEMENT

World-class reserves of natural gas exist in Western Colorado. The West Slope Colorado Oil & Gas Association envisions a future where technology and innovation continue driving increased development of Western Colorado's natural gas and oil.

Meaningful environmental stewardship, strong stakeholder relationships and long-term commitments to the communities where WSCOGA members live and work are principles valued by WSCOGA. Commitment to such principles will advance Western Colorado's continued importance as a producer of local oil and natural gas resources.

## LETTER FROM THE DIRECTOR

### Dear Fruita Community,

100,000 paid visits and counting! In less than a half a year of operations, the Fruita Community Center has been very popular – we actually like to say “well-loved”. We are extremely pleased that the community, not just Fruita but the Grand Valley, has come out to swim, play basketball, or take an exercise class. Staff at the FCC will continue to work toward providing you with a clean and safe facility as well as a great experience. We want to make sure you have the absolute best facility.

I'll-loved there are many nicks and dings throughout the facility that are in need of repair. We are currently in the process of performing some deep cleaning, the Fruita Community Center will be closed for approximately 6-8 weeks, starting September 6th – 11th. Staff and contractors will be working on the roof, plumbing, electrical, and other repairs and upgrades. Please bear with us as we perform the necessary repairs.

New parks have opened in Fruita during the last few weeks and will host the Colorado State Parks and Recreation Activities Guide. Fruita Bike Park located just north of the Colorado River. The bike park consists of beginner and advanced trails. Fruita is currently in the process of installing a shelter and picnic benches in the Fruita Community Center. Fruita Community Center will be open for the Fruita Community Center and programs they offer in Fruita.

## Aquatics

### Water - Aerobics

Location: Fruita Community Center  
 Water is just the beginning - it's all about the fun! Join us in the fun or one of aquatic classes. All classes are 50 minutes long and are held in the Lap Pool. Fee is \$1.00 per class, or purchase 40 punches for \$30.00 (Entry to the Community Center).

**Splash 1 - Cardio One -** A class designed to give you a GREAT cardiovascular workout using resistance of the water to increase intensity but also keep you cool. Great for beginners and you don't have to be a swimmer. Class consists of 10 minutes of warm-ups, 20 minutes of cardiovascular conditioning, 10 minutes of toning and 10 minutes of warm-down. Class is offered Monday, Wednesday and Friday at 8:30am in the shallow end of the Lap Pool.

**Splash 11 - Cardio Two -** Same great workout as Splash 1, just a little more intense. Class consists of approximately 5 minutes of warm-up, 25 minutes of cardiovascular conditioning, 10 minutes of toning and 10 minutes of warm-down. Class is offered Monday, Wednesday and Friday at 8:30am in the shallow end of the Lap Pool.

**Express Breath -** You'll get it all with this class. Some cardiovascular conditioning, toning, core conditioning, Pilates and other surprises all while incorporating proper breathing techniques. Class is offered Monday and Wednesday, 11:30am-12:30pm in the Lap Pool. Fee per punch varies in the deep end.

**H2O Strength -** Resistance work in this class just using the water resistance to build muscle strength and flexibility. We'll just use lots of fun "props" in this one. Class is offered Monday and Wednesday 5:30am-7:00am in the shallow end of the Lap Pool.

**HydroPunch -** Just like the name says! This class is designed to provide a powerful cardiovascular workout. Don't think because you're in the shallow end you can't get a workout. Class is offered Monday and Wednesday 11:30am-12:30pm in the Lap Pool.

**The Deep End -** The highest intensity class! Slip on a flotation belt and join us in the deep end. A variety of moves such as kick-boating, raising, biking and weight lifting will be used to keep your heart rate, strengthen abdominal muscles and burn calories. Class is offered Monday and Wednesday 5:45am-6:30am in the Lap Pool.

**There is no class the week of November 21st.**  
 Register your child in the class you feel is appropriate according to their class description. Your child may be moved to a more appropriate level after the first week of class begins. Please call the office if you have questions about this class. Class availability is first come, first served. We will have a wait list but this does not guarantee your child's placement in a class. Class availability is first come, first served. No refunds or make-ups for missed classes. In the event of a class cancellation, a make-up class will be scheduled.
